2. Select “Download Now” on the page that appears

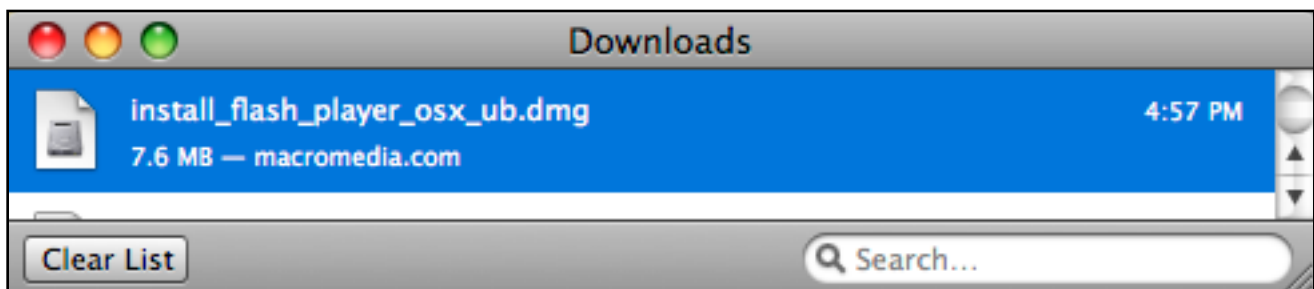

A screenshot of the Adobe website's 'Download Adobe Flash Player' page for Macintosh OS X. The page features a dark header with navigation links like 'Products', 'Solutions', 'Learning', 'Help', 'Downloads', 'Company', and 'Store'. Below the header, the page title 'Adobe Flash Player' is displayed. On the left, there is a large red square icon with a white 'f' logo. To the right of the icon, the text 'Download Adobe Flash Player' is followed by 'Adobe Flash Player Macintosh OS X' and a link 'Different operating system or browser?'. Below this, there are links for 'Learn more', 'System requirements', and 'Distribute Flash Player'. Further down, the version 'Adobe Flash Player version 10.1.102.64' and file size 'Universal Binary for Macs | 7.60 MB' are listed. A section for 'Browser: Safari, Firefox, Opera' and 'Download time estimate: 7 minutes @ 56K modem' is present. A yellow button with a downward arrow and the text 'Download now' is highlighted with a red rectangular border. At the bottom, a warning states: 'You may have to temporarily disable your antivirus software. By clicking the Download Now button, you acknowledge you have read and agree to the Software Licensing Agreement'.

3. Close Safari completely by going to Safari (in upper left hand corner of monitor) -> Quit Safari.

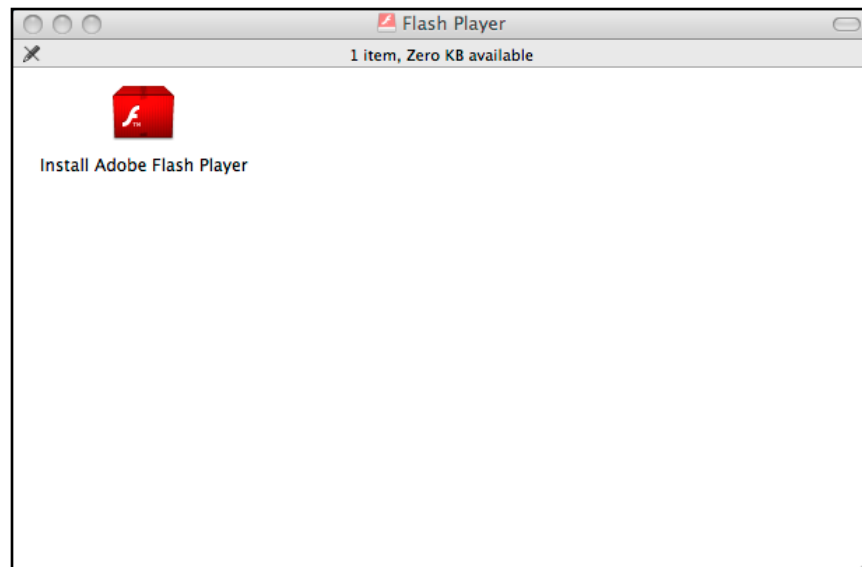

Note: The install process will not complete if you do not completely close out of Safari.

4. Wait for your download to complete

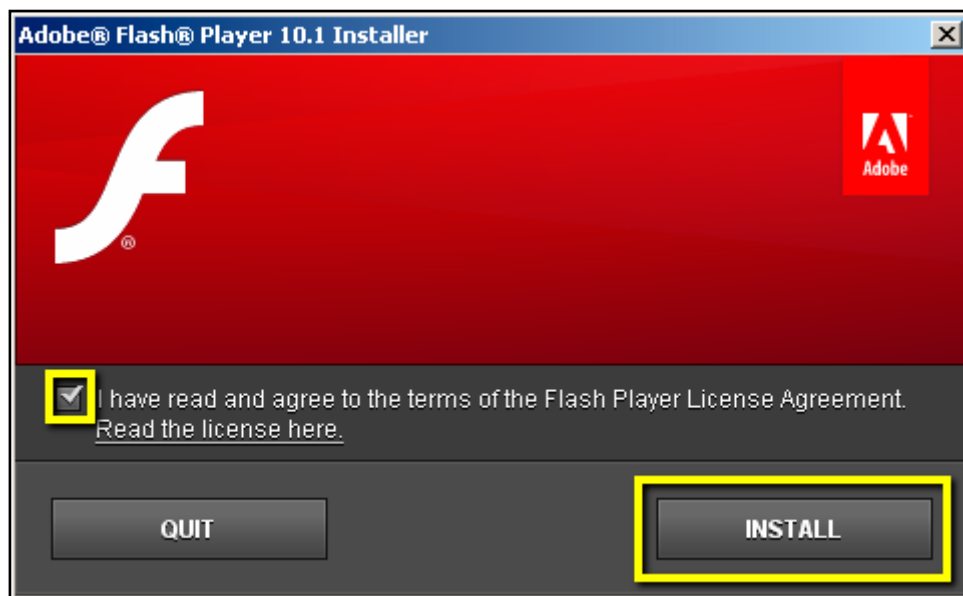

5. A box will open that says "Install Adobe Flash Player". Double click this box.

6. When the dialogue box appears asking if it's OK to run this program, select "Open".

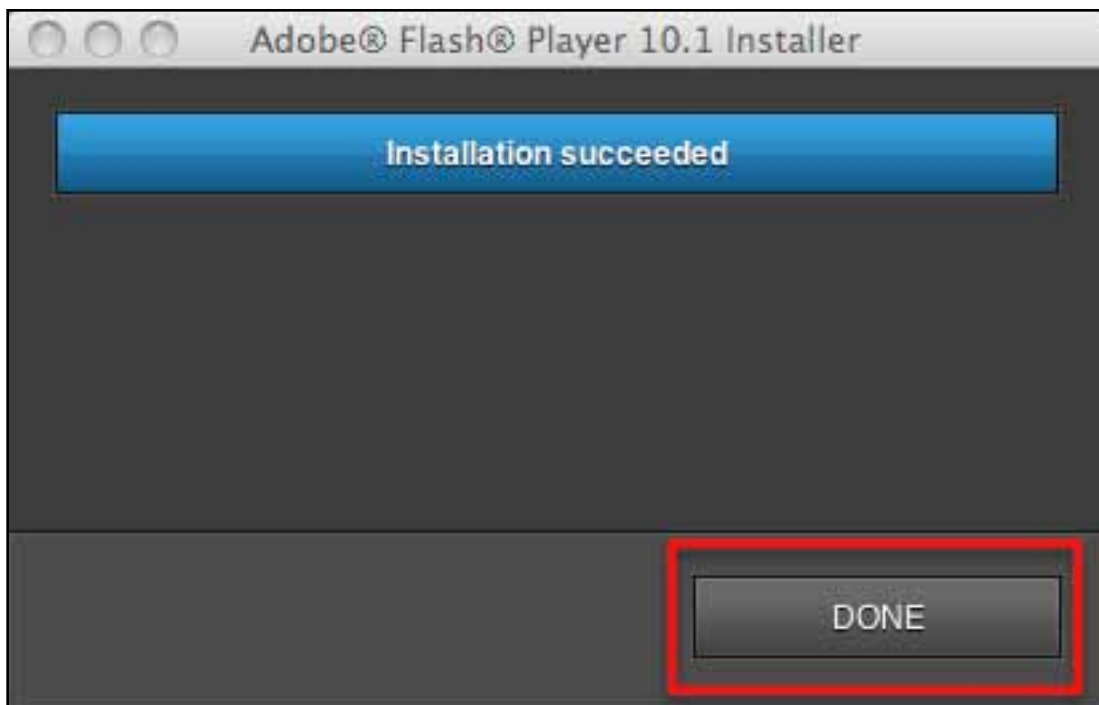

7. A box will be displayed to install Adobe Flash Player. Check the read and agree to terms box and click install.

8. Note: You may need to enter your username and password for your computer

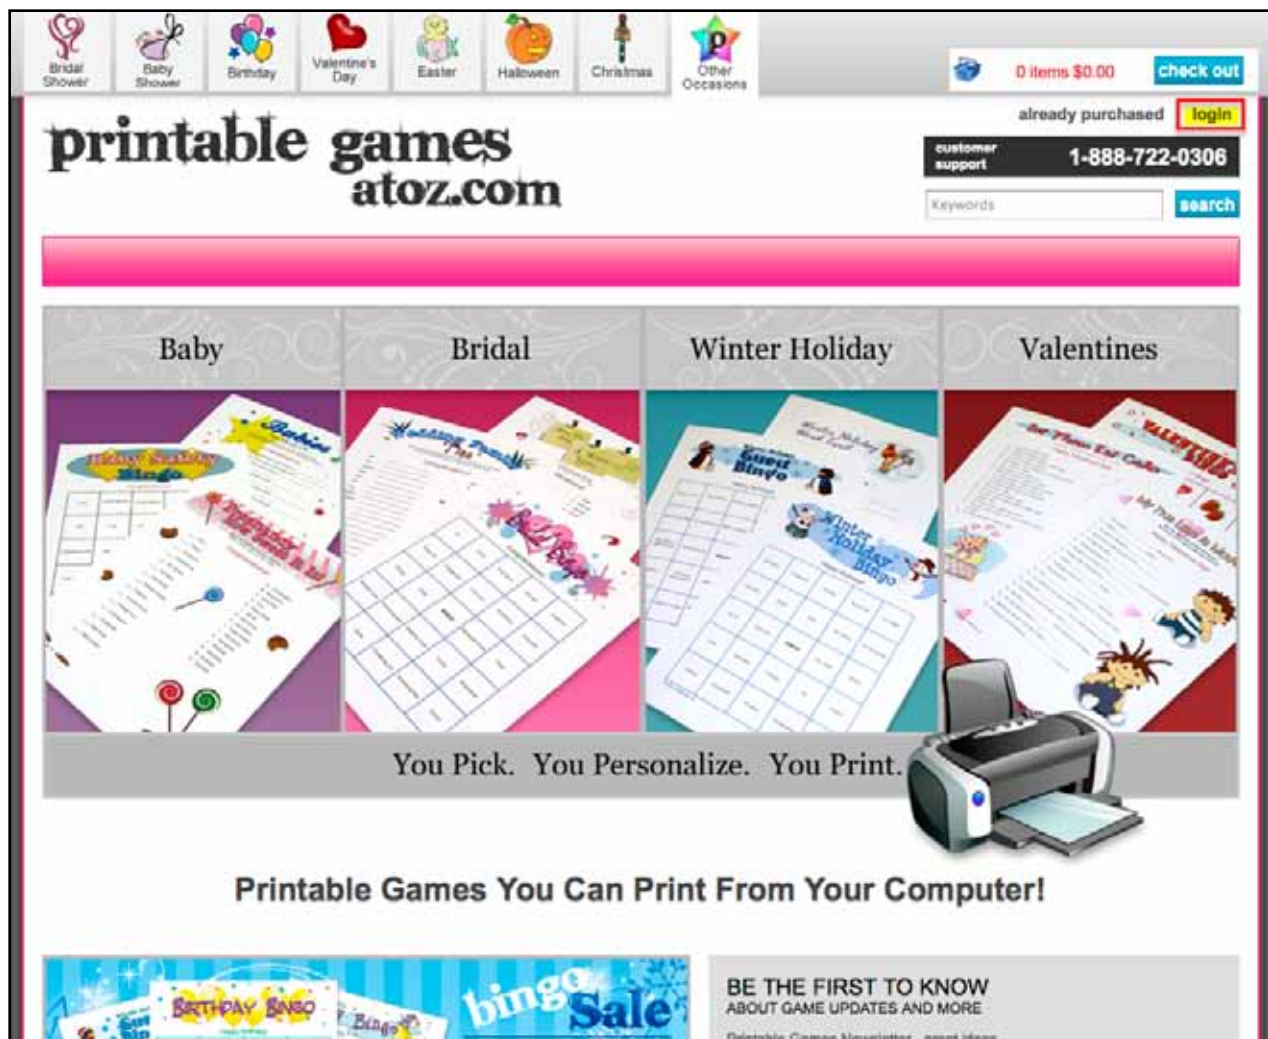

9. Wait for the install process to take place (a few seconds)

10. Open Safari

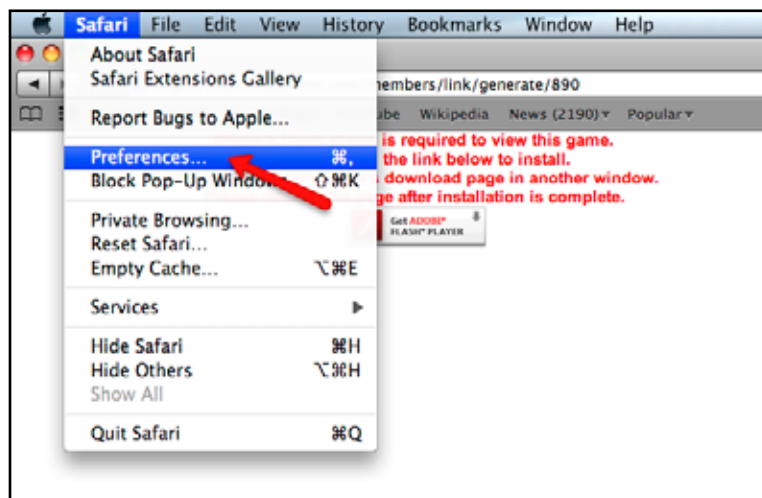

11. Log back into PrintableGamesAtoZ.com
