

Installing Adobe Flash Player on a PC using Internet Explorer

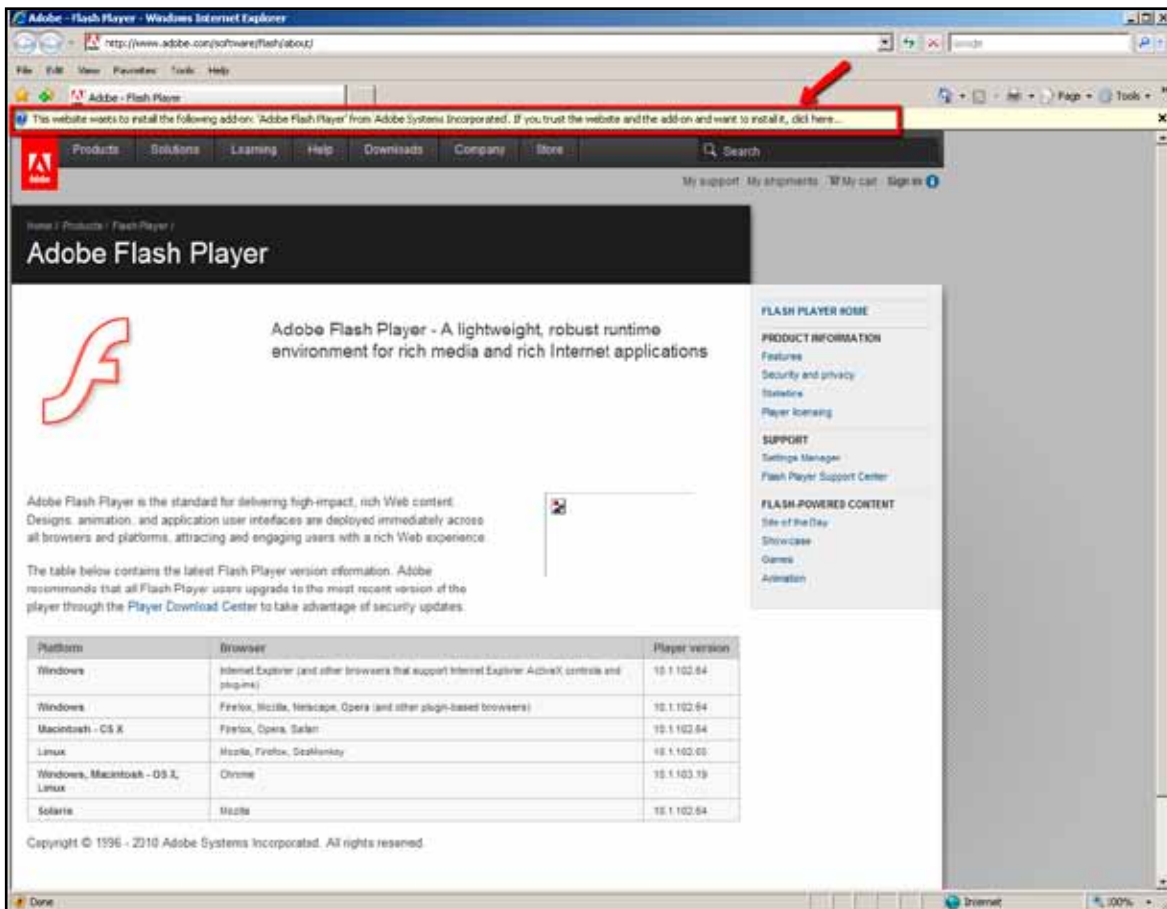

1. Click Get Adobe Flash Player.

Note: Clicking the icon within this document will begin the download.

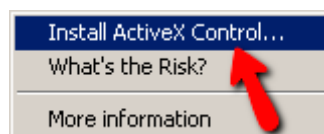

Adobe's Flash player is required to view this game.
Please click on the link below to install.
This link will open Adobe's download page in another window.
Please refresh this page after installation is complete.

2. A small bar may appear at the top of your screen for you to allow “add-ons”. Click this bar to allow.

3. Select “Install ActiveX Control” from the drop down box.

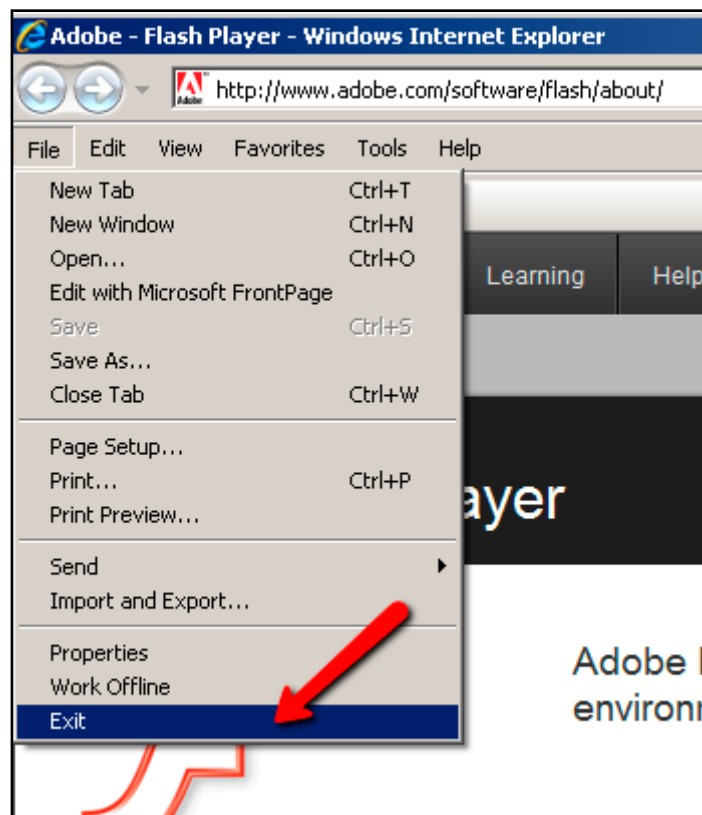

4. A box will appear which says “Do you want to install this software?” Click install.

5. SHUT DOWN INTERNET EXPLORER COMPLETELY.

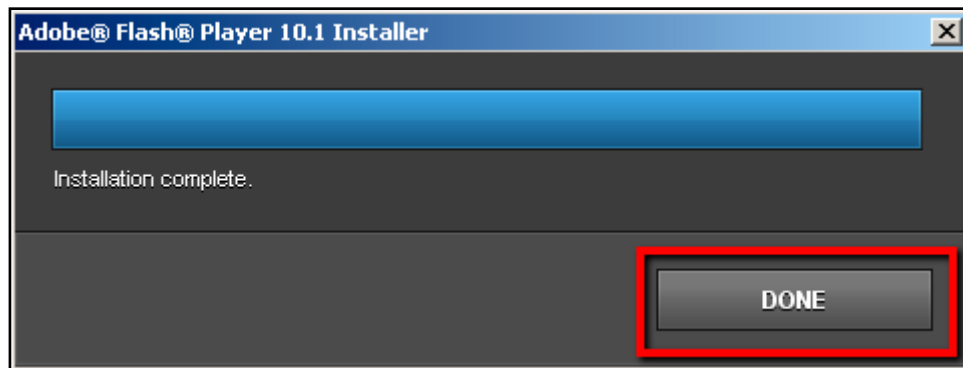

Note: Failure to close out of Internet Explorer will not allow the software to finish installation.

6. A box will be displayed to install Adobe Flash Player. Check the read and agree to terms box and click install.

7. When the blue box appears which says “Done”, click “Done”.

8. Restart IE and log back into site.

You Pick. You Personalize. You Print.

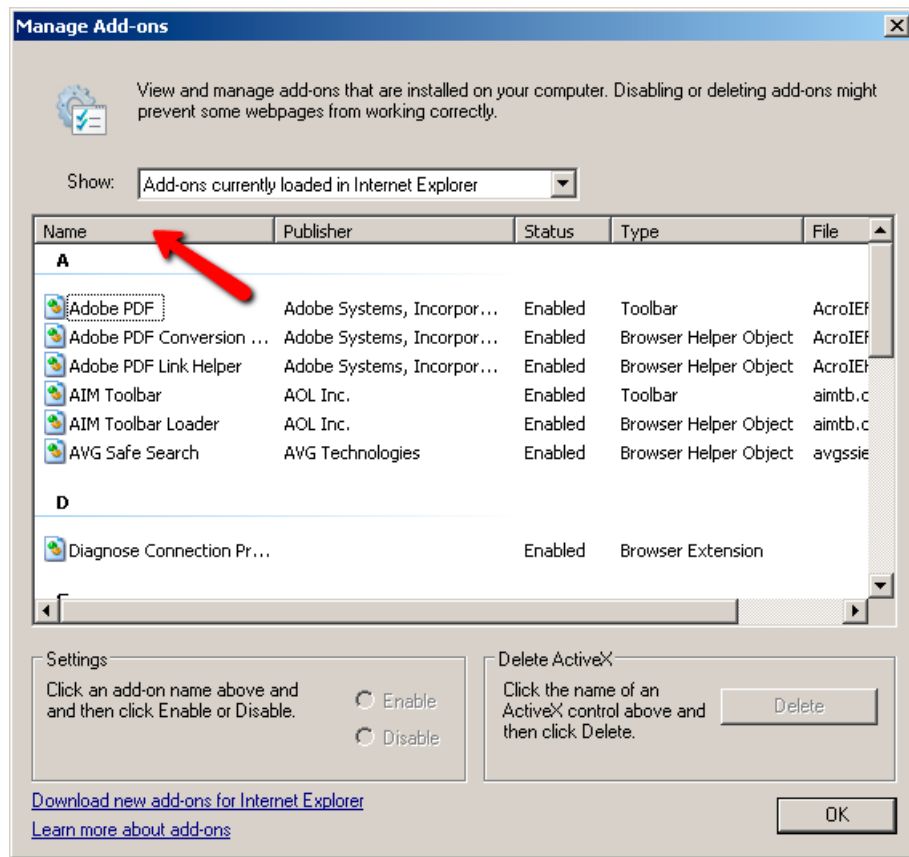

Printable Games You Can Print From Your Computer!

Note: If you are still not able to see the game, make sure that your plug-ins are enabled with Internet Explorer. To Do This:

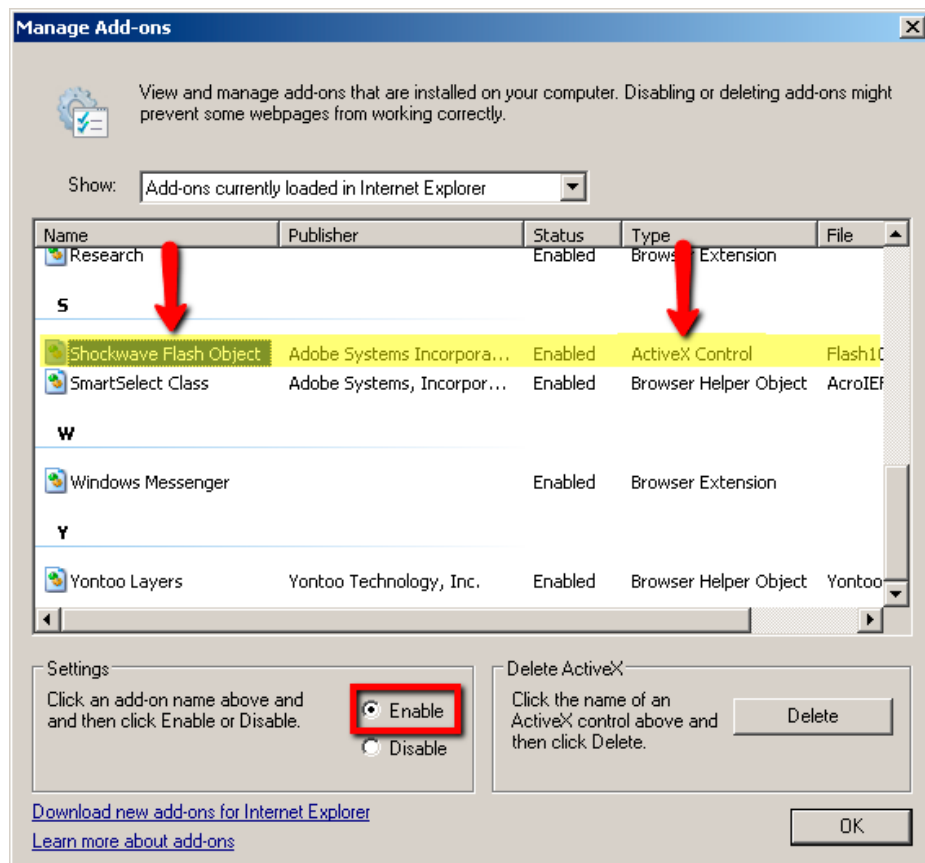

1. Click on "Tools" -> "Manage Add-Ons" and click on "Enable or Disable Add-Ons"

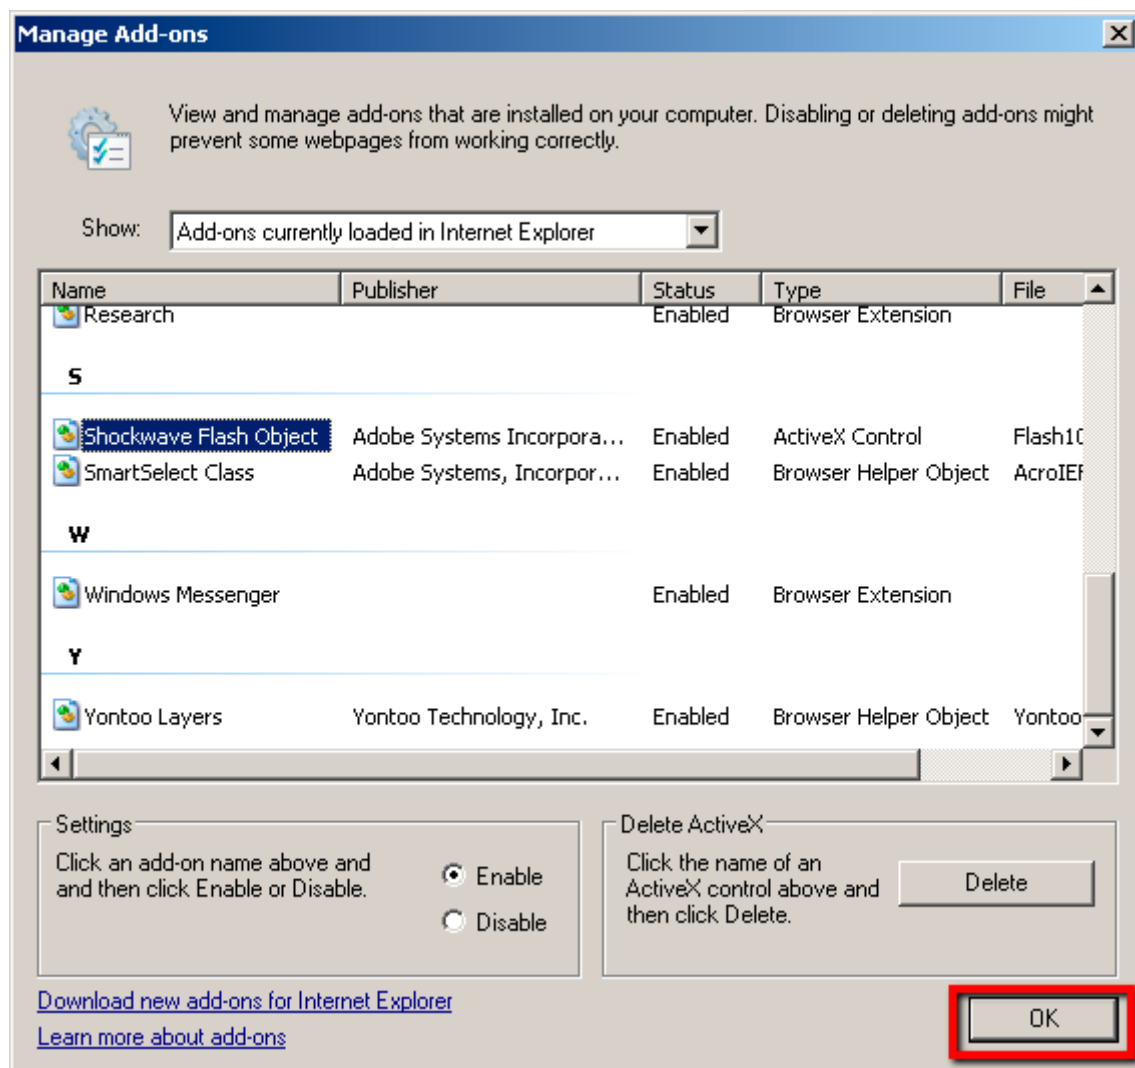

2. Sort by name by selecting “Name”.

3. Under ‘Name’ look for Shockwave Flash Object and under ‘type’ it says active x control and make sure it says enabled.

4. Press “OK”.

5. Refresh Internet Explorer and your game will appear.
